

NORA JIN

Digital Product Manager · Technical Project Manager

PMP · AWS Certified AI Practitioner · Monash MIT (2025–2027) · Available from Jul 2026

+61 0466 492 426 · nuojin@gmail.com · [linkedin.com/in/norajin-it](https://www.linkedin.com/in/norajin-it) · Melbourne, VIC · 485 Visa (Applying) — Full rights Jul 2026

PROFESSIONAL SUMMARY

Digital Product Manager and Technical Project Manager with 3+ years of cross-functional delivery experience across automotive digital platforms, enterprise software, and cloud-based products (China, Sweden, Australia, Malaysia, UK). Proven track record owning end-to-end product roadmaps and driving product discovery through structured customer research, backlog prioritisation, and Agile delivery within cross-functional squads. Led digital product initiatives at ECARX with Volvo and Polestar OEM partners, translating customer insights and analytics into commercial outcomes. Holds PMP and AWS Certified AI Practitioner certifications, with hands-on full-stack development capability that enables authentic engineering collaboration and delivery credibility. Currently completing a Master of IT at Monash University; full-time work rights available from July 2026 on a 485 Graduate Visa.

WORK EXPERIENCE

Product Manager · ECARX — Vehicle Digital Systems | China & Sweden

May 2023 – Apr 2024

- Owned end-to-end digital product roadmaps for in-vehicle platforms across CN and EU markets; led product discovery sessions synthesising OEM customer feedback and market analytics into feature prioritisation, phased release milestones, and Go/No-Go gating criteria — delivering zero-delay parallel releases across production and R&D environments.
- Drove cross-functional squad delivery across R&D, QA, and testing teams; established a standardised defect closure process using structured triage and root-cause analysis, reducing average issue resolution cycles by ~30% and improving product quality outcomes.
- Served as primary liaison between Chinese engineering squads and Volvo/Polestar OEM partners; produced compliant delivery reports and coordinated cross-timezone stakeholder reviews, sustaining commercial partnership trust across CN–EU dual environments.
- Synthesised OEM customer insights into change-impact assessments supporting iterative feature delivery and version stability validation, applying human-centred thinking to prioritise backlog items with the highest customer and commercial impact.
- Built Jira dashboards and analytics pipelines tracking sprint velocity, defect trends, and release readiness; produced executive delivery reports with data-driven insights for CN and EU leadership at key delivery checkpoints.

Software Testing Engineer · Softcom Dynamics | China & Sweden

May 2022 – May 2023

- Designed and executed system-level and integration test cases for enterprise software and vehicle digital systems; used CANoe and Simulation Box to validate CAN/LIN protocol compliance. Developed Python automated regression scripts on Linux, significantly reducing manual test cycles.
- Participated in joint defect reviews with Volvo and Polestar R&D teams on-site in Gothenburg; built fluency in cross-cultural engineering collaboration and international technical stakeholder management.

INTERNSHIP EXPERIENCE

Product & Advisory Lead — NexStar 2025 · HelloRide Global · City of Melbourne | Melbourne

Nov 2025 – Dec 2025

- Led product discovery, user research, and competitive analysis to define digital product positioning and go-to-market roadmap for HelloRide Global's AU market entry; identified key user segments across AU and CN contexts and translated insights into data-driven product recommendations with clear commercial rationale.
- Developed front-end features (JavaScript + AWS) delivering a working digital product increment within a 6-week sprint cycle; awarded NexStar Excellence Award — top performer across 30+ participants, recognised by the City of Melbourne and ACASE.

Full-Stack Developer & Product Lead · FutureLab | AU · MY · UK

Jun 2025 – Jul 2025

- Contributed to front-end (JavaScript) and back-end integration (AWS Lambda + Firebase) for an online mentoring platform; delivered core digital feature modules covering user authentication, data storage, and API integration within timeline.

- Managed cross-timezone delivery coordination across a 3-country squad (AU/MY/UK); led the final stakeholder technical showcase, earning high recognition from clients and programme mentors.

PROJECTS

Polestar P417 International BEV Project (ECARX × Polestar)

Jun 2023 – Apr 2024

- Led full lifecycle management for Geely and Volvo BEV digital platform projects applying PMBOK 10 knowledge areas; implemented cross-functional governance with quality control, JIRA Kanban risk tracking, and weekly analytics dashboards reported at Polestar–Geely shareholder meetings; both projects delivered on schedule to the European market via critical path analysis and Agile sprints.

Stack: JIRA · Agile · PMBOK · Kanban · Cross-national Project Management (China / Sweden)

PathwayIQ — Victorian Career Guidance Digital Platform

Apr 2026 – Present

- Led full product lifecycle as PM and technical contributor; defined zero-data-storage architecture and drove iterative backlog prioritisation across Agile sprints, shipping a 5-page SPA with Three.js WebGL, intelligent autocomplete, and an AI-powered labour market analytics system (JSA/DESE, Oxford/ABS, NCVET/VTAC) covering job shortage alerts and AI displacement risk tiers; deployed continuously on Vercel.

Stack: Next.js · Node.js · Python · Three.js · SPA · Vercel

GlowCheck — Youth UV Protection Digital Platform

Mar 2026 – Apr 2026

- Architected a serverless backend (AWS Lambda + API Gateway + OpenWeatherMap) generating tiered UV-protection advisory cards with <200ms response time; designed S3 + Lambda + Athena data pipeline for UV trend analytics and visualisation; produced bilingual technical documentation; delivered on time and in full.

Stack: AWS Lambda · API Gateway · Node.js · S3 · Athena · OpenWeatherMap

Volvo V216 In-Vehicle Infotainment Platform · Softcom Dynamics × Volvo | China & Sweden

May 2022 – May 2023

- Designed and executed system-level and integration test cases covering HMI, multimedia, navigation, Bluetooth, and OTA upgrade modules for the Volvo V216 IVI system; validated CAN/LIN protocol compliance using CANoe and Simulation Box; developed Python automated regression scripts and collaborated with Volvo Sweden R&D on cross-national defect localisation.

Stack: CANoe · Simulation Box · Python · Linux · CAN/LIN · Test Automation

Cloud Pose Recognition — Kubernetes Elastic Deployment

Mar 2025 – May 2025

- Developed a FastAPI + YOLOv8 pose recognition service containerised with Docker and deployed to Kubernetes; conducted Locust load testing across 1–8 Pods and optimised peak response time from 17.8s to 10.5s (41% reduction), validating cloud-native elastic scalability.

Stack: FastAPI · Docker · Kubernetes · Locust · Python · AWS

CORE SKILLS & TECHNICAL EXPERTISE

Product Digital Product Roadmap · Product Strategy · Product Discovery · Backlog Prioritisation · Feature Prioritisation · Sprint Planning · Agile / Scrum · Release Management · Go-to-Market Strategy · Version Gating · OKRs · A/B & Multivariate Testing · Analytics-driven Delivery · Human-Centred Design · Customer Experience

Project Mgmt PMP · PMBOK 10 Knowledge Areas · Risk & Stakeholder Management · Executive Reporting · Delivery Governance · Cross-functional Squad Leadership · OEM Partner Management (Volvo, Polestar)

Technical Python · JavaScript · Java · SQL · Linux · Node.js · FastAPI · Firebase · Docker · Kubernetes · Next.js · Vue 3 · Three.js · REST APIs · API Integration

Cloud & AI AWS AI Practitioner · Lambda · S3 · DynamoDB · API Gateway · Cognito · Amplify · Azure · Gemini AI

Testing / QA System & Integration Testing · CANoe · Simulation Box · CAN/LIN Protocol Validation · Test Automation (Python/Linux) · Defect Triage

Languages & Certs Mandarin (Native) · English (Fluent) · Japanese (Elementary) · PMP · AWS Certified AI Practitioner

EDUCATION

Master of Information Technology · Monash University, Melbourne

2025 – 2027

Bachelor of Economics and Finance · Changchun Normal University, China

2016 – 2020
